

2017 Young Hornets Volleyball Camp

Why wait until high school to start having fun playing volleyball? This camp is open to girls and boys that are looking for an opportunity to experience what volleyball is all about. We have designed this camp specifically with young players in mind and have modified our equipment, techniques, drills, and games to make learning volleyball fun. The campers will get exposure to all aspects of the game, but focus mostly on the basic fundamentals and skills that are needed for the 1st year level of competition.

This camp will be led by the coaches and players of the **Essex High School Volleyball team**. This is the perfect camp to introduce kids to this fantastic sport in an atmosphere that is positive, energetic and fun!
